

The Perfect Praising Prayer

I/I

Following is a specialized version of the '**Praising Prayer**.' It is designed to transform your consciousness by having you identify yourself with a '*perfected being*.' In the prayer below we have used Jesus Christ as the great example. However, you could just as easily use the name of any great world teacher or '*enlightened being*' for whom you have an affinity. It is suggested that you try to use a three syllable name to preserve the *cadence* of the prayer. For example, you might say something like this: **"I think like Buddha, Now!"** or **"I think like Mary, Now!"**
